ADLN Celebrates Christmas with one more trip to see the Cancer Children and with our Sweet Heart Babies

Rebecca, Vicky and I will be traveling to the Hospital Pediatric de Sinaloa in Culiacan to visit our cancer children from BCS who are there for treatment, and to Casa Valentina to celebrate the Holidays with them. We also want to wish all the Doctors and Medical Staff at the Hospital a very Merry Christmas, we are very grateful for their help! We would also like to send a special thank you to Dr. Rogelio Ortiz for helping us find and diagnose children with cancer in the Salvatierra Hospital of La Paz. Amigos de los Niños is closing the year out with a Cardio Mini Clinic seeing the children who have already received open heart surgery, and two more who will be going in 2011 for theirs, everyone is doing well!

Seasons Greetings

It is December, the month for giving and receiving, Amigos de los Niños needs your help!!! Even with the lowest rates from doctors and hospitals, the cost of keeping children like Jose Antonio, Paola and Daniel alive is very high, please include a gift for our children in need in your Holiday Giving. It will save and change a child's life. Thank you for what you have done and for being able to count on you for our future!

Daniel

Paola

Jose Antonio
